

Computer Support for Financial Services Businesses

Personalized Computer Support Packages for:

- Hedge Funds
- Broker-Dealers
- RIAs
- Related Firms

Working from Manhattan and Maryland, we respond 24x7 to Your Computer Needs.

Which of these services do you need to grow your business and meet your obligations? Grab a pen, check the boxes for what you need, then call us to learn more.

- IT Consulting, General Tech Support** — We listen carefully to understand your requirements. Working with you, we will identify the most critical issues you face. We will analyze how to work together toward your goals.
- Email: Compliant, Secure, Archiving, Spam-free** — Satisfies regulatory needs. Works with Outlook, BlackBerry, iPhone, Treo, Thunderbird, Mac, Webmail, etc. Full support for audits.
- Shared Network File Storage with Full Support for Remote Workers** — Work from the office or on the road. Files are always available to all staff, no matter where they're working from. We understand that everything must work 100% when you travel, so we support clients at all hours. Files are backed up hourly.
- CRM Software** — Web-based, multi-user, secure. Keep track of client activity for better client service, compliance, and marketing. Maintain vendor information. Scales well.
- Public Websites and Intranets** — Share info with staff, clients, and the public. Control access to private data. Maintain the site yourself or have us help. Full service.
- Document Archiving & Retrieval** — Scan and archive important paper documents, such as signed contracts, in PDF files.
- Offsite File Backup & Recovery** — Your files are ALWAYS safely backed up. Files are copied overnight to a data center in Tysons Corner, Virginia.

- Internet Auto-Failover** — Everyone can keep working even if your main Internet connection goes down. Works great.
- Business Continuity Plan (BCP)** — We write and help you implement a compliant BCP. Required by the SEC for RIAs and by FINRA for Broker-Dealers. Full service.
- New Office Setup, Moving Assistance** — Be productive from day one at your new location. Weekend and evening availability.
- Regulatory and Audit Planning and Assistance** — Leverage True Blade's 5+ years of experience with the regulatory and audit processes.
- VoIP Telephone Systems** — Convenient & feature rich but sometimes disappointing. Find out if VoIP will work for you.
- Custom Software Development** — From minor projects to team efforts, True Blade can help you or refer you to other resources.

True Blade's founders each have 10+ years of Financial Services Industry experience with firms of all sizes: startups to giant membership organizations. We give you peace of mind, personal service, and a long-term partnership to help you achieve your goals.
